

Dust/Mist/Smoke Collector

AERPRO Model ClearAER 4MV

AERPRO Enterprises, Inc.
Air Cleaning Solutions

The **AERPRO Model ClearAER 4MV**
is designed to give you clean air from:

- **Dust (All) • Fume (Laser, Plasma, Weld) • Oil Mist**
- **Overspray (Paint, Metalizing) • Smoke (Dry/Oily)**

The AerPro Model 4MV is designed for safe and efficient ambient collection of process dusts, mist, and smoke. The efficient 5 HP blower moves up to 7000 CFM (cubic feet per minute). Filter efficiencies are rated by MERV 14 which replaces ASHRAE 52-76.

The air cleaning begins with the air entering through the four 4" multivee disposable prefilters and continuing through the 95% efficiency rated micro glass main filters. The "T" shape air flow allows for very effective cross flow room patterns.

Model 4 MV

Specifications:

- **7000 CFM maximum air flow**
- **(4) 30-40% multivee prefilters**
- **(4) 95% Micro Glass Vee Main Filters**
- **28" H x 48"W x 82"L**
- **Hanging weight 550 pounds**
- **5 HP Blower, 14/13/6.5 full load amps**
- **Single Speed 208/230/460/3/60**
- **Junction box**
- **16 Gauge construction**
- **Painted dark blue chemical resistant paint**
- **82 dBA**

FEATURE & BENEFITS

- **COMPACT SIZE**
- **HIGH EFFICIENCY**
- **LOW OPERATING COSTS**
- **LOW MAINTENANCE**
- **TOOL-LESS ACCESS**
- **MADE IN USA**
- **2 YEAR WARRANTY**

OPTIONS

- **Mounting brackets**
- **Silencer reduces noise by 6 dBA**

Dust/Mist/Smoke Collector

AERPRO Models ClearAER 2MV

OR

Model ClearAER 2MVPF

The **AERPRO Model ClearAER 2MV** is designed to give you clean air from:

- **Dust (All) • Fume (Laser, Plasma, Weld) • Oil Mist**
- **Overspray (Paint, Metalizing) • Smoke (Dry/Oily)**

The AerPro Model 2MV or 2MVPF (with large wrap around prefilter) is designed for safe and efficient ambient collection of process dusts, mist, and smoke. The efficient 3/4 HP (2MV) or 2 HP (2MVPF) blower moves up to 3000 CFM (cubic feet per minute). Filter efficiencies are rated by MERV 14 which replaces ASHRAE 52-76.

The air cleaning begins with the air entering through the two 4" disposable prefilters and continuing through the two 95% efficiency rated micro glass filters. The "T" shape air flow allows for very effective cross flow room patterns.

Specifications:

- **3000 CFM maximum air flow**
- **(2) 30-40% multiview prefilters**
- **(2) 95% Micro Glass Vee Bags Main Filters**
- **24" H x 24"W x 72"L (for prefilter L = 108")**
- **Hanging weight 260 pounds (MVPF = 365 lbs.)**
- **3/4 HP Blower, 115/1/60**
- **Two Speed with 10' power cord**
- **16 Gauge construction**
- **Painted dark blue chemical resistant paint**
- **82 dBA**

FEATURE & BENEFITS

- **COMPACT SIZE**
 - **HIGH EFFICIENCY**
 - **LOW OPERATING COSTS**
 - **LOW MAINTENANCE**
 - **TOOL-LESS ACCESS**
 - **MADE IN USA**
 - **2 YEAR WARRANTY**
- OPTIONS**
- **Mounting brackets**
 - **Silencer reduces noise by 6 dBA**
 - **2 HP Model MV2PF, 230/460/3/60, wired to junction box**
 - **Variable speed pulley**
